- Redux
- MobX

WORK EXPERIENCE

Myack | New York United States　　**Mar 2023 - PRESENT**

Project: MyZiphy
1. Developed from scratch a secure, multi-page online form with robust data validation and PDF generation capabilities;
2. Implemented a user-friendly appointment booking system, improving patient access and scheduling efficiency.

Project: LabQ
1. Designed and built interactive graphs for visualizing patient medical data;
2. Created an innovative, filterable human body map to display patients' diseases and corresponding medical indicators, providing a powerful tool for diagnosis and treatment discussions.

Welbex | Moscow Russia　　**Oct 2022 - Mar 2023**

1. Developed and maintained custom integrations for the AmoCRM platform using JavaScript, React, Redux Toolkit, Axios, HTML, and CSS.
2. Successfully migrated legacy JavaScript applications to React improving maintainability and performance;
3. Collaborated with designers, back-end engineers, QA testers, and project managers throughout the full software development lifecycle, from ideation to deployment.

Proxyone | Poznan Poland　　**Feb 2022 - Apr 2022**

1. Developed responsive and SEO-optimized e-commerce websites, landing pages, and admin panels using HTML, CSS, and JavaScript;
2. Implemented performance optimizations to enhance page load speed.
